

Dakota's Fund

Dakota came to live with us in February 2008. She wasn't just a pet, she became family. She was like a little shadow that followed you everywhere. She loved to romp and play with our other two dogs, Cheyenne and Bayleigh. She loved to snuggle with you any chance she could get. She was a funny girl, adorable, so loveable and such a precious part of our family.

Dakota was diagnosed with an enlarged heart in 2011. Dr. Guidry and the entire staff at Helping Hands Veterinary Clinic worked with us on a treatment plan that would fit our fixed income. Occasionally, we came up short for Dakota's medicine, but she never went without because of the compassion everyone here at HHVC has for their furry friends.

Sadly, Dakota passed away on April 7th from complications of her heart condition. We, her family, wanted to give back, and pay forward, the kindness and generosity that all at HHVC have shown us, by donating money from Dakota's medicine, and we invite you to join us.

Dakota's Fund has been set up in memory of Dakota, and in honor of all the good HHVC does for its patients and their human families. All monies collected will go into an account to be used to help those who are unable to afford care with the cost of medications, exam fees, and any other services, on a case by case basis.

If you would like to donate, simply put your contribution in the jar. You may also use your credit or debit card, or use an envelope provided to mail in a donation.

With grateful hearts, we thank you for helping us in helping others.
