

Mission Statement

Our clients are the heart of Racine Veterinary Hospital, and we seek to be the most trusted and respected veterinary care provider in our community. Respect and honor for the human-animal bond are at our core, and we strengthen it through this pursuit. We provide exemplary medical care and serve our clients and patients with empathy, compassion, and gratitude. We continuously strive to listen and learn, so that we can respond to the needs of pets and their people.

Education is a pillar of progressive veterinary care, and our team of lifelong learners continually seek new means to improve our offerings. The commitment of our staff to our mission allows us to maintain the tradition of compassionate care, trademarks of Racine Veterinary Hospital.
