Entero TruBenefits

The gastrointestinal tract is the largest immune organ in the body, beginning in the mouth and ending with the large bowel. Entero TruBenefits is formulated to continuously support your pet's dental and intestinal health

From Mouth to Tail

Dental Benefits: Supports healthy teeth and gums, promotes normal periodontal health and naturally promotes fresh breath.

Gastrointestinal Benefits: Helps maintain proper gut flora, supports normal digestion and bowel function and helps maintain the protective layers of the bowel.

Tranquillium

Tranquillium is an all-natural calming formula to reduce canine stress and resulting behaviors without causing drowsiness. Each hypoallergenic, daily chew is formulated with melatonin, l-theanine and jujube extract.

Gland-ease

Dogs with chronic anal gland issues should use gland-ease on a regular, long-term basis to keep their anal glands healthy and prevent future problems. While many dogs will see results within 1 week, more severe anal gland problems may require up to 6 weeks of regular usage to achieve desired benefits.

Omega Benefits

Omega Benefits is the highest quality omega-3 for your pet's overall wellness, as well as healthy joints, cardiovascular function, skin, brain and eye health.
